Dear Law Faculty and Staff,

This is the inaugural newsletter that the LLTC is sending out with information to support faculty teaching and scholarship. As I know that many of our staff also engage in teaching and scholarship, I am including them in this e-mail as well. This newsletter will come out every two weeks and will include calls for papers, LLTC sponsored events/training opportunities, grant opportunities as they come up, and occasional tips that may help you with your research.

For this fortnight’s newsletter, the first part is a list of LLTC events that lists all currently planned events for faculty that the LLTC is planning so far this semester. Second, under the heading “Call for Papers”, is a list of all calls for papers and research presentation opportunities for law faculty that we have put together for you, in order from soonest to expire to those that you have more time to put something together for.

I hope that you find this newsletter helpful and welcome feedback on how it can better serve your needs.

Warm Regards,
Becka Rich
Senior Associate Director
Law Library and Technology Center
