What is Web of Science Core Collection?

Search over 55 million records from the top journals, conference proceedings, and books in the sciences, social sciences, and arts and humanities to find the high quality research most relevant to your area of interest. Using linked cited references, explore the subject connections between articles that are established by the expert researchers working in your field.

Search
Combine words and phrases to search across the source records in the Web of Science™ Core Collection.

Add another search field.

Limit Your Search
Change your search limits or limit the indexes you wish to search. Click “More Settings” to see the list of all the indexes included in your Web of Science Core Collection subscription.

SEARCH OPERATORS
Use AND to find records containing all terms
Use OR to find records containing any of the terms
Use NOT to exclude records containing certain words from your search
Use NEAR/n to find records containing all terms within a certain number of words (n) of each other (stress NEAR/3 sleep)
Use SAME in an Address search to find terms in the same line of the address (Tulane SAME Chem)

WILD CARD CHARACTERS
Use truncation for more control of the retrieval of plurals and variant spellings
* = zero to many characters
? = one character
$ = zero or one character

Phrase searching
To search exact phrases in Topic or Title searches, enclose a phrase in quotation marks. For example, the query "energy conservation" finds records containing the exact phrase energy conservation.

AUTHOR NAME
Enter the last name first, followed by a space and up to five initials.

Use truncation and search alternative spelling to find name variants:
Driscoll C finds Driscoll C, Driscoll CM, Driscoll Charles, and so on.

Driscoll finds all authors with the last name Driscoll
De la Cruz f OR Delacruz f finds Delacruz FM, De La Cruz FM, and so on.
CITED REFERENCE SEARCH

Step One
- Use the drop down arrow to navigate to Cited Reference Search.
- Search by Cited Title, Cited Author, Cited Work, Cited Year, Volume, Issue, or Page.
- Use the Journal Abbreviations List for help with abbreviations.

CITED REFERENCE SEARCH TIPS:
- Use wildcard characters (see page 1) on Cited Authors and Cited Work.
- Look for variants (sometimes papers are cited incorrectly) before finishing your search.
- The “Citing Articles” count reflects citations from all years and all editions of the Web of Science Core Collection – even those years and editions you don’t subscribe to.
- All cited references are indexed and searchable, including references to books, patents, government documents, etc. Secondary cited authors, full source titles, and non-standard source abbreviations are automatically searched across all source records in the Web of Science. Keep in mind that a search of this sort may only return partial results.
- Since 2012, all references to ‘non source’ items (Books, Newspaper Items, etc.) are fully indexed (full list of authors, full title, etc.) as published. Click “Show Expanded Titles” to see the full reference information.

Step Two
- Select the references, including variants, to include in your search, then click “Finish Search” to display your search results.

YOUR WEB OF SCIENCE PROFILE
- Save records to EndNote online
- Integrate with ResearcherID
- Save search histories
- Create Search Alerts
- Create Citation Alerts
- Save your custom search settings
