Exporting References from OVID Databases to EndNote

1. Conduct your search

2. Select the references you want to export to EndNote. Click on “Export”
3. Select Export to EndNote and select fields to display. Click on “Export Citation”

- **Select Fields to Display**
  - Citation (Title, Author, Source)
  - Citation + Abstract
  - Citation + Abstract + Subject Headings
  - Complete Reference
  - Custom Fields

- **Select Citation Style**
  - Ovid Citation

- **Include**
  - Link to External Resolver
  - Include URL
  - Search History

- **Export Citation(s)**

4. Firefox users will need to select the “Open With” option and then select “EndNote” from the dropdown box. Click on “OK”
5. EndNote will open automatically with the selected references. New citations will appear in the “Imported” and “All References” sections of your EndNote library.

6. Choose each reference, click on the reference tab, and review the information to make sure it is correct.
Choose the correct reference type

If you are using APA style, the title of journal articles should be in sentence case.

Add a DOI number if needed

Reference Type: Journal Article

Rating
