5. Firefox users will need to select the default “Open With” option and then select “EndNote” from the dropdown menu. Click “OK”

6. EndNote will automatically open with the exported references in your “Imported” and “All References” sections of your EndNote library
7. Select a reference, click on the reference tab, and review the information to make sure it is correct.

Choose the correct reference type

If you are using APA style, the title of journal articles should be in sentence case

Add a DOI number if needed
