Exporting References Web of Science to EndNote Online

1. Conduct your search

2. Click in the box next to the references you want to add to EndNote Online. Click on “myendnote.com”

3. Select a record content option from the dropdown menu. Click on Send
4. EndNote Online will automatically open (log in) Click on New References. The imported references will stay in the Unfiled folder until they are moved to a group.

5. Select on the reference title and review the information to make sure it is correct. Click on a field to change/add information.
